House Committee On Revenue

Measure, Appointment or Topic:

HB4134

I oppose HB4134 as a business owner in this state. We have struggled in this industry post COVID and increasing taxes will further hurt our industry. The taxes being collected should help support this industry as they are the ones doing the collection work. These businesses are getting Pennie's in return for their effort. These funds need to help support the businesses that are doing the work to stay afloat rather than redirecting them to other causes. It's getting harder to make ends meet in this industry and adding additional taxes without tourism will eventually start closing doors. I strongly oppose HB4134.
