HB4125

I strongly oppose this bill. Why should the citizens of Oregon be punished for the lack of funding because our state government can't manage it properly. Why is it when our government can't manage funds raising taxes is the fix, not the mismanagement of funds and programs.

When does it end, we are being taxed to death. It's no mystery why people and businesses are leaving the state. As a lifelong Oregonian, it breaks my heart that I'm 100% leaving this state, soon as my wife retires in a few years.
