

Submitter:	Philip Ratcliff
On Behalf Of:	
Committee:	Senate Committee On Natural Resources and Wildfire
Measure, Appointment or Topic:	SB1541

For decades, out-of-state corporations have dumped climate pollution into our air and water while we bear the costs. We are losing homes and even people's lives to wildfires, floods, and extreme heat. These polluters always knew this was happening but continued to do it while piling up massive profits with no accountability.

SB 1541 would create the Climate Resilience Superfund to ensure the largest out-of-state fossil fuel polluters pay their share for our safety and recovery from climate disasters, rather than Oregonians. For too long, taxpayers and our local governments have footed the bill for these corporations.
