Committee:	House Committee On Judiciary
Measure, Appointment or Topic:	HB4145

I strongly oppose HB 4145. It infringes on my rights as a lawful gun owner. While measure 114 is in the courts you passed 243 and now 4145. Where does it stop? Why not wait until 114 makes it through the courts. Why not enforce the current laws instead of making things harder on people. Your agenda seems to be firearm confiscation not safety. Also these laws make it harder for young hunters to start hunting which helps support ODFW.

As a long time resident of this state, it is disappointing how far this state legislature pushes to take away rights and do as you please. Thought you would have learned trying to cram through the gas tax.

I always thought the short sessions were to clean up budget items not ram through your agenda.

Thank you
