

Submitter:

Bobby Tarusan

On Behalf Of:

Committee:

House Committee On Judiciary

Measure, Appointment or Topic:

HB4145

This bill is no different than 114 and once again steps on every law abiding citizen. It's also once again putting law enforcement and government agencies above the law and that is not the case. Nobody is above the law and you government officials need to be reminded you work for the people and we the people don't work for you! The constitution is not for sale to the highest bidder. The constitution is clear and is shall not be rewritten.

“Shall not be infringed upon “

I oppose this bill and all bills alike. My freedom and others in the united state are not up for debate!
