On Behalf Of:

Committee:

House Committee On Judiciary

Measure, Appointment or Topic:

HB4138

I am submitting testimony in support of HB4138. There must be avenues for accountability when law enforcement officers break the law or go against their own policies and regulations. Without being able to easily identify the name, badge number, and law enforcement organization/precinct of any officer interacting with the public, accountability becomes inaccessible and abuse of power becomes inevitable.
