House Committee On Agriculture, Land Use, Natural Resources, and Water

Measure, Appointment or
Topic:

HB4153

This bill is in opposition to what small towns are meant to provide. Small towns make one think of community, small businesses and local family operations. These small farms are what keep towns like this running and to edge them out seems foolish. In this day and age, it is getting more challenging to maintain a solid livelihood and more so if your local government is working against you. These small towns are made up of small, family run businesses that need and deserve the support of our local government. If you truly believe in working for the people and families you represent, you will oppose this bill.
