I've lived in Oregon for 61 years. If it weren't for work, I'd leave and do it fast.

Oregon has always spent above it's means. The kicker was created to reign in spending. It has worked marginally in my opinion. Removing some of the kicker safe guards only allows the State to spend even more above their means. The kicker is not for the politicians to spend. It's not theirs. It is owed to those who paid for it.

DO NOT TAKE OUR KICKER.
