

Submitter: Victoria Barter  
On Behalf Of:  
Committee: House Committee On Judiciary  
Measure, Appointment or Topic: HB4088

As a homeowner in Portland, Oregon, and a lifelong women's rights activists, I  
OPPOSE HB 4088.

HB 4088 shields from accountability the gender-enforcement "transgenderism" lobby. That lobby is drugging and performing surgeries on minors without proper scientific medical research. All current research shows that these experimental cosmetic elective drugs and surgeries have no benefit but cause enormous harm to minors. That is not medicine. That is lobby predation on the vulnerable.

I also object VERY strongly to linking gender-enforcing medical interventions to women's reproductive health. That is a lobby tactic to pass into law the interests of that lobby which the voting public DOES NOT WANT.

I am shocked and horrified that my own Democratic representatives would play such a low, shameful trick on Oregon voters.

Please OPPOSE HB 4088.

Thank you.
