

Submitter: John Haddox  
On Behalf Of:  
Committee: House Committee On Judiciary  
Measure, Appointment or Topic: HB4145

To whom it may concern,

Most gun laws that has past in the last 4-6 years in Oregon has done nothing to make people safer. All of these laws including 114 has hurt the law abiding citizens. As we struggle to keep up with these changes, permits, so called high capacity magazines, the vast majority of crimes are committed by people who don't care what the law says. They are also repeat offenders that the court doesn't do nothing about but a slap on the wrist and release back to the public. If you want to help stop crime, start there first.

Thank you
