Committee:

House Committee On Revenue

Measure, Appointment or Topic:

HB4125

I strongly oppose this, the tax payers of Oregon voted in the kicker. It should go back to the people who there is a surplus. The state just found 21 million dollars for homeless projects . How about do an audit in our city, county and state and see where the money is going or just sitting before you try to rob the people of Oregon again. As far as this to be used to make up the sinking Pers how about eliminate the colleges , learning hospitals etc out of pers and go back to public safety only in it like police and fire . Put a cap on how much someone makes a year to be in Pers.

Thank you and again I strongly oppose
