Measure, Appointment or Topic: HB4145

I am a long time Oregon citizen and resident who voted for Measure 114, and am very frustrated by the delays in its implementation. I am also a long time firearm owner, since childhood. As a rural veterinarian, I carried a firearm in my work pickup for humane euthanasia purposes, used another to control varmints on our farm, and even went hunting a time or two with a friend. None of the measures that will be implemented by measure 114 would have the least negative effect on my use of firearms, past, present, or future; nor on the uses by my many law abiding, safe practicing gun owning neighbors and friends. Please, let's get this done!

Yours respectfully,  
Joe
