

Submitter:

Michelle Bienick

On Behalf Of:

Committee:

House Committee On Revenue

Measure, Appointment or Topic:

HB4134

I support HB4134 to help recover wildlife populations. It is LONG overdue that connectivity and wildlife passages are offered above and below highways, freeways, and roads! It is Long overdue that farmers and ranchers receive the education and support on how to live and raise livestock with respect to wildlife. Animal poachers must be held accountable.

Wildlife recovery NOW is detrimental for our future generations yet to come!
