I support the agri-tourism bill. I have been going to The Wooden Shoe Tulip farm since before they had their festivals. I have taken groups of agricultural trainees from other countries and we have had private tours with Barb Iverson. And other people who have come to visit from other countries got treated to go to the tulip farm also. I have been to many other agri-tourism sites also in the valley. Many with school kids. Most kids these days will never get to visit and learn about farming without this sort of experience.
