

Submitter:	Sally Clemens
On Behalf Of:	citizens of Oregon
Committee:	House Committee On Revenue
Measure, Appointment or Topic:	HB4125

HB 4125 regarding the existing Kicker bill should not be passed. The present budget, in my opinion, has been poorly spent and I do not want more money poured into a system that disregards the needs of the people. Paying high paid consultants to decide how we invest our money is a waste of taxpayer money and should be stopped before more money is poured into the present system. An example of poorly advised spending is the bill signed by the governor to invest PERS funds into clean energy programs similar to ones that have failed in other states. I strongly oppose HB 4125. Please vote NO. Thank you.
