Committee:

House Committee On Judiciary

Measure, Appointment or Topic:

HB4145

Owning firearms, including for self defense, is a critical bulwark of American democracy, and a long held individual right. Adding onerous permit hoops, and more than doubling the cost almost immediately creates significant barriers, both financial and bureaucratic, to exercising constitutionally guaranteed rights, and locks otherwise law-abiding citizens from access. This bill is a travesty, and an affront to law abiding citizens of Oregon, and I strenuously oppose it.
