

Submitter:

John Masterman

On Behalf Of:

Stop harming children

Committee:

House Committee On Judiciary

Measure, Appointment or Topic:

HB4088

If someone is deemed too irresponsible to own a firearm, use tobacco or alcohol,¹⁸ to make financial decisions or even get their ears pierced, then why on earth do we push to have life-altering medical treatment available below the age when kids understand the consequences of their decisions?

If you want to try and change genders (which is not possible), go ahead. But do it on your own time, with your own money, leave the kids alone, and don't ask for special treatment.
