HB4088

Hello,

My name is Kara and I wrote this today to support this bill presented to the house.

The subject of this bill directly impacts me. The federal government is attempting to erase trans people from existence and prevent women from getting necessary medical care. The state needs to step in to do what is right for our people

I found it pertinent that our state does all they can to protect our rights to make medical decisions between doctors and patient. Bodily autonomy is non-negotiable.
