

Submitter:	John Hofer
On Behalf Of:	Humanity
Committee:	House Committee On Judiciary
Measure, Appointment or Topic:	HB4145

"I am an Oregon resident who voted for Measure 114. Failure to implement it timely is not only morally disappointing, it is also foolish and dangerous, exposing more people to preventable gun violence, a social and health epidemic arising out of the placing of gun ownership above the health of our communities. The moral rot is affecting our nation, and HB 4145 is a local step Oregon can take against this moral rot, by affirming life -- specifically, by Measure 114's ban on large-capacity magazines, closure of the Charleston loophole, and the permit to purchase requirement, all going into effect now.

HB 4145 MUST pass this session."
