Measure, Appointment or HB4153  
Topic:

We are frequent and consistent customers of our long serving community farm, Valley Flora in Langlois Oregon. The unparalleled produce is essential for our small isolated community. We could not believe that such a bill is even being considered and are very skeptical about why it is being brought forward? What special corporate interest is behind it? Why are you trying to wipe small operations that people love and use. Your explanation page ignores this and is dishonest propaganda. you are clearly favoring bigger operations. This bill would be a travesty and should go down in flames. Small farms are essential everywhere and have played a vital role in this county's success for 250 years. Please don't be a part of their ruin just as they are making a popular come back. Government overreach! Don't do it!
