House Committee On Judiciary

Measure, Appointment or Topic:

HB4145

Our family of four registered voters oppose this bill. Continuing to push a permitting system that does not exist and is overburdensome to both the user and the provider is bad policy. This system was requested years ago by measure 114 and would create an additional heavy burden on Oregon law enforcement to administer in a time when there are very real staffing and financial shortfalls. And as the Oregon Supreme Court asked, can you please explain which constitutional rights have a permitting process to exercise them? We oppose this bill.
