I oppose this bill. My hard earned money is taken away from me in the form tax all year. For what? Oregon ranks amongst the lowest of 50 states in nearly everything. I could use my hard earned money to help pay for the expensive things in Oregon just to live and you want to take that from me, too. I don't even know if tax dollars are going where it's supposed to because there's rarely if never audits performed. I don't trust any of it anymore. You squeezing us even more doesn't earn trust. I want my kicker.
