Dear Chair Nathanson, Vice Chairs Reschke and Walters and members of the House Revenue Committee,

I am an Oregon voter in 97212. I urge you to support HB 4125.

The Revenue Forecast Modernization Act (HB 4125) is a solid government measure to create more accurate revenue predictions and thus a more stable state budget. We need increased resources - more revenue - in order to fulfill basic social mandates; access to a quality education, housing, healthy food, and medical care.

I am paying attention to the officials who support HB 4125 come election season. I will not support those who do not support this step in the right direction  
Taxpayers don't count on the kicker, they've already paid, and won't miss it.  
Public schools have already been cut past the point of morality. With 36+ kids in classes, cutting more staff is not an option.

There have already been huge cuts to social services We need revenue even more during huge federal cuts. State revenue supports healthcare, education, housing, disability services, climate mitigation, infrastructure, and transportation.

Indeed it will require even more than passing HB 4125 to generate the necessary revenue, but this is a first step.
