On Behalf Of:  
Committee: House Committee On Agriculture, Land Use, Natural Resources, and Water  
Measure, Appointment or HB4153  
Topic:

Hello, I simply cannot believe there is such life-threatening or economic threat or environmental threat that this has gone so far to become an actual item to vote upon.

Small farm stands are life-giving to communities! Even a tiny farm stand provides food and income for so many. There is also the consideration of the health benefits, community relationships being strengthened and potential for continued growth to an economy.

In addition, many communities in our state are indeed small and rural to begin with. Traveling for hours to support and benefit from a farmstand can be a barrier for some families.

Keep our state growth-minded and support any agricultural initiative that builds community, please!
