House Committee On Judiciary

Measure, Appointment or Topic:

HB4145

I oppose this bill. I do not support giving police the power to decide who can own certain firearms. Rights should apply equally, not be based on discretion. Raising the cost of a permit that does not yet exist is also unreasonable and creates a financial barrier for law-abiding people.

This bill turns a constitutional right into a privilege that requires permission and money, which goes against the purpose of the Second Amendment. Limiting all legal challenges to Marion County is also unfair and undemocratic.

I urge you to oppose HB 4145.
