Committee: House Committee On Revenue

Measure, Appointment or Topic: HB4125

I have two children in Portland Public Schools--a 10th grader and a graduating senior. It is heartbreaking to see the difference in how their education has been supported in comparison with my own public education in the state of Oregon in the 1990's, prior to the passage of Measure 5. We care about Oregon and its students. We support HB 4125 to modernize the kicker and move towards a more stable funding model for Oregon schools.

Now is the time to effect change and reform Oregon taxes to benefit children like mine. I am sick and tired of the continuous lack of funding for schools, starting with Measure 5 and then with Measure 50.

We are continuously failing generations of Oregon children - and simultaneously damaging our business climate by failing to attract talented employees with families to our city due to the failures of our schools.

The structure of the Kicker right now is destabilizing to the General Fund. Without a stable, growing General Fund, public education will never get a big enough piece of the pie. The Revenue Forecast Modernization Act or HB 4125 makes budget predictions less high stakes for our children and communities.

I'm calling on lawmakers to speak out boldly in favor of this bill and pass it into law. As the federal "Big Beautiful Bill" legislation starts to take effect, Oregon's General Fund will require a solid foundation, and the current Kicker is a perpetual crack in that foundation. Let's have a revenue prediction system that ensures investment in our children and in the future small business in our state.
