Committee:

House Committee On Revenue

Measure, Appointment or Topic:

HB4125

Please support Kicker reform during the 2026 session. Having lived in Colorado, Connecticut, and California with our kids before moving to Oregon in 2019, our family can attest to how ridiculous it is for us to witness the state of Oregon subject its public education system to the whipsaw of poor public finance planning because it holds on dearly to the unique and anachronistic Kicker. Despite being a taxpayer who has received/receives the Kicker, our family wholeheartedly believes our community and fellow Oregonians would be better served and educated by enacting significant reform of the Kicker to benefit public education. Thank you for your consideration.
