Committee:

House Committee On Rules

Measure, Appointment or Topic:

HB4018

Voter integrity is highly questioned in Oregon. Electronic Registration Information Center (ERIC) software, <https://ericstates.org/> , is utilized in only 25 of 50 states, Oregon being one. Many states have withdrawn from ERIC. County clerks have lost their citizen validation methods with all their ballot data sent to SoS Salem and ERIC system. County clerks have not been tasked to monitor and update voter roll accuracy. Does anyone TRUST ERIC updating SoS mailing/citizen voter rolls? There needs to be a third party independent audit of the SoS voter roll accuracy. Several state law suits from the US Attorney General have be against SoS. There needs to be voter integrity or a Help America Vote Act (HAVA) lawsuit will be held against Oregon SoS. There is national question as to each voter integrity and the Safeguard American Voter Eligibility (SAVE) is about to be passed in the US Senate. I believe there needs to be requirement the Secretary of State to study elections on HB 4018.
