

Submitter:

Lisa Oelker

On Behalf Of:

Committee:

House Committee On Judiciary

Measure, Appointment or Topic:

HB4088

First and foremost, I would like to thank our legislative branch of the great state of Oregon in being proactive to protect the basic human rights of Oregonians in an era when human rights and protected constitutional rights are in crisis.

We must protect women seeking reproductive or gender-affirming healthcare from federal interference. This is a human right, not a political issue.

Thank you.
