HB4125

It is NOT the responsibility of Oregon citizens to bail out poor and irresponsible handling and investment choices of the PERS debt! We have already paid into this system and how it's been handled is not on the Oregon tax payers. We voted for the KICKER law with full knowledge of its rule to return taxes to the people and the government has NO right to touch a dime of that surplus. Any member that votes to take this money from Oregonians will be voted out of office starting with the Gov. Kotek! Keep your hands off the KICKER??
