Committee:

House Committee On Judiciary

Measure, Appointment or Topic:

HB4145

I was opposed to Measure 114 and I am opposed to HB 4145. I do not like how this bill was introduced and no notice given to the people. I am opposed to making it harder for law abiding citizens to purchase a firearm. The increase in fees and increase in application time are putting even more undo burden lower income citizens and people trying to purchase who are in fear and need to defend themselves. Making it only able to me challenged in Marion county seems to be trying to limit the voices of all of Oregonians. And creating an emergency clause when it won't go fully into effect until 2028 seems to be contradiction of itself. Also why are we spending tax dollars and trying to make changes while this is still being weight on by the Oregon Supreme court. Again I am opposed to HB 4145.
