

Submitter: Pamela Richards  
On Behalf Of:  
Committee: House Committee On Judiciary  
Measure, Appointment or Topic: HB4088  
To whom it may concern:

Women's reproductive health matters!

We must protect our basic human right to bodily autonomy.

Politicians that don't have a clue of women's anatomy and our reproductive systems  
SHOULD NOT speak with authority regarding bills and laws restricting such.

Lives are at stake with all legislation restricting care for women.

Please think of your mother, sister, aunt, nieces, cousin, friend, coworker, and  
neighbor. Stand up for them. Save lives.
