The only thing that keeps me alive on this earth is the guarantee that in Oregon I can live how I want, as who I am. We have the basic right as human beings to express ourselves and exist in the world in ways that make us comfortable. I would not be alive today if I was not able to obtain transitional care. Many of the people closest to me would not be alive today if they were not able to obtain transitional care. We matter and we have just as much right to change our bodies as anyone who gets plastic surgery or hair implants.
