

Submitter: Dena Wilder  
On Behalf Of: SB 1576  
Committee: Senate Committee On Housing and Development  
Measure, Appointment or Topic: SB1576

With an aging population and a society that should be approaching the future with CARE at the center of all things, this bill will ensure more folks have access to the type of housing they need. Universal Design should actually be our North Star when it comes to housing, so this bill is a step in the right direction. Having more units that are designed for wheelchair accessibility means more folks will be able to live in a home that fits them, that allows them to move more freely in their space and will allow them to have their friends with disabilities visit comfortably. We should all have accessible homes so that our homes are not discriminatory to people with access needs. Let's DO THE RIGHT THING and pass this bill!
