Committee: House Committee On Agriculture, Land Use, Natural
Resources, and Water

Measure, Appointment or Topic: HB4153

I am a community member surrounded by incredible farms and farm stands. I can't imagine our community without these wonderful places to find healthy food. We live remotely and have a desire to eat real food. I feel very blessed to have them in my community. A commute would be far and difficult for me. Our local farmers are special, do so much for our community and provide me the healthy enriched life I want where I live. Please rethink this plan and allow farmers to provide the food we need in our community and so many other communities in our state. The goal should be to make it easier for people to access the food they need for a healthy life.
