Measure, Appointment or Topic: SB1541

I support SB 1541. Corporations who have made enormous sums of money while they have contributed to our climate emergency and pollution should pay some of their profits towards helping to clean up the results of their business.

Worsening wildfires and extreme summer heat has had a negative financial and health effect on Oregonians. It is appropriate that these companies pay their fair share for the damages they have caused.

We taxpayers are already paying for the damages they have created.

Please pass SB 1541, it is the right and fair thing to do.
