House Committee On Revenue

Measure, Appointment or Topic:

HB4125

The state of Oregon has failed again to fund it's obligations to its employees even though the citizens have done their part. The PERS program has had funds available but improperly invested to cover it's bloated obligations. The citizens KICKER funds are not to be touched for any other reason than to be returned to the citizens. It is in the constitution of our state. It was put there by and for the people. Without a vote by the citizens of the state it will be considered theft to allocate it elsewhere.

It is past time for you to fix your mess without robbing your constituents. Hands off the kicker funds!
