

Submitter:

Michele Chapais

On Behalf Of:

Committee:

House Committee On Judiciary

Measure, Appointment or Topic:

HB4088

I OPPOSE HB4088 BECAUSE IT:

Bundles reproductive health care for females with experimental and harmful "gender-affirming" treatments.

Dilutes sex-based protections by prioritizing gender identity over biological reality.

Leads to to the erosion of privacy, safety, and dignity in single-sex spaces like women's shelters, prisons, and sports.

Shields providers of ideologically-based interventions while also restricting needed information about evidence-based care.

Normalizes practices rooted in sexism and homophobia.

May fuel medical tourism from restrictive states which would strain Oregon resources.
