

Submitter: Linda Kelley
On Behalf Of:
Committee: House Committee On Climate, Energy, and Environment
Measure, Appointment or HB4080
Topic:

We Oregonians deserve access to clean energy, and more ways to cut electricity bills, as energy costs continue to increase. Balcony Solar is an affordable way for myself and many friends who as retired workers cannot afford to put costly rooftop solar on our houses. My utility bill has risen shockingly despite the fact that we installed a household heat pump a year ago. In Eugene, we have many renters and it would be an important advantage for them to be able to have this help with their energy bills.

Please pass HB 4080. It is a simple proven and effective way to help us use clean, affordable energy. The future is in your hands.
