

Submitter:

Rodney Gill

On Behalf Of:

Committee:

House Committee On Judiciary

Measure, Appointment or Topic:

HB4145

This measure violates the principle of equity and places an undue burden on those with lesser means. Background checks are already completed as a qualification to purchase guns. Additional administrative steps and fees simply seek to limit access to a constitutionally protected right, effectively making exercising that right untenable for those without the monetary means or time to complete extra steps.
