

HB4125 – KICKER THEFT - OPPOSED

The probability that my partner and I will have to leave the State of Oregon within the next year or two is partly because the Oregon statutes have made it impossible to live here, financially. We are seniors who are getting 8-10% rent raises every year on a fixed income and our energy bills are beyond the Pale. Not to mention that grocery bills go up weekly. Shall I get started about medical insurance problems that are driving our doctors out-of-State?

Now, you want to steal our Kicker, which will further devastate our lives. PLEASE DO NOT DO THIS!! Try to be aware of the actual people that live here, because if you continue this way, (taxing us to death), you won't have any constituents left.
