HB4145

Members of the House Judiciary Committee,

I am writing in fierce opposition to HB 4145. This is a bad bill and is nowhere close to a fix on the original Measure 114. This gives sensitive, personal information directly to the FBI with no guarantee that our privacy will be protected. This is a complete overreach, and every Oregonian should be upset with this latest move. Next, it raises the permitting scheme from \$65 to \$150. This is NOT what the voters approved. This tells us as voters that we were all lied to by the Chief Petitioners and charlatans LEVO about the sheer cost of this monstrosity. People will still buy guns; you have to ask yourself if you want the State of Oregon involved in the process. This will negatively impact people in lower socio-economic groups.

As Oregon gun owners, we are done with the constant attacks on our civil liberties because, after all, we are more of the solution. Than anything that comes out of the Oregon legislature. We are active, we are engaged, and most importantly, we are ready show up in record numbers to help change the direction of our state. Mark my words, the signature of the Governor on HB 4145 will be another catalyst for her loss in November. No amount of fraud will prevent that. The choice is yours, do the right thing and put HB 4145 in the trash bin where it belongs. Quit being so partisan on this topic and engage with gun owners. You need our help to fix the issues that we all face. Quit demonizing the most law-abiding part of our state.

Thank you for your time!!

Sincerely,

Derek LeBlanc
