

Submitter: Melanie Evans

On Behalf Of:

Committee: House Committee On Judiciary

Measure, Appointment or Topic: HB4088

My name is Melanie Evans, and I am a nurse that has been living and providing care for Oregonians since 2021. As a health professional, I see the increased risk and implications that can occur when politicians dictate how healthcare is provided. No one should be prosecuted for giving evidence based care, especially when it could save lives. I strongly encourage you to support HB4088.
