Re: Micro-Enterprise Tariff Adjustment Grant

Chair Nguyen, Vice Chairs Isadore and Skarlatos, Members of the House Economic Development, Small Business and Trade Committee:

I, Lannette Do-Ong, write in support of House Bill 4061 and the -1 Amendment creating a Micro-Enterprise Tariff Adjustment Grant.

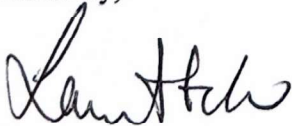

I am a small business owner for a small business (named "Bambū Desserts & Drinks") that sells authentic Vietnamese Desserts, coffees, smoothies, and milk/fruit teas in the Southeast Portland area.

I import all my goods from Taiwan, and over the last year my costs have increased 30% due to tariffs. These increases in costs are a shock to our operating budgets. This is forcing me to increase my prices, cut back on store hours/employee hours, as well as take items off my menu because I can't afford to buy the inventory it takes to make those drinks. In the past 10 years of running my business, this is the first time that I am struggling to decide whether or not to keep my doors open and operating.

The Tariff Adjustment Grants would be a lifeline to help me keep my doors open.

I greatly urge for your support of the -1 Amendment and House Bill 4061.

Sincerely,

Lannette Do-Ong
