Re: Micro-Enterprise Tariff Adjustment Grant

Chair Nguyen, Vice Chairs Isadore and Skarlatos, Members of the House Economic Development, Small Business and Trade Committee:

I, Dui Fa Zhen, write in support of House Bill 4061 and the -1 Amendment creating a Micro-Enterprise Tariff Adjustment Grant.

I am a small business owner for a small business (named “Mei Sum Bakery”) that sells a variety of Chinese pastries and cakes.

I import all my goods from China, and over the last year my costs have increased 40% due to tariffs. These increases in costs are a shock to our operating budgets. This is forcing me to increase my prices and have noticed a decrease in the return of my loyal customers as a result. I’ve been running my business for over 20 years and this year my sales have taken the biggest hit. I keep hearing the chatter amongst my clientele stating that my prices are getting higher, but all I can do is apologize as I am just doing what I have to, to keep my business afloat.

The Tariff Adjustment Grants would be a lifeline to help me keep my doors open, and continue to carry on my family business.

I greatly urge for your support of the -1 Amendment and House Bill 4061.

Sincerely,

*Dui Fa Zhen*
