I oppose the House Bill 4125. As a Retired Health Care worker I have enough trouble making end meet financially with the State of Oregon trying to take some or all of my kicker return from Taxes I already pay to Oregon. I use that kicker when available to of set paying into some of my yearly income tax the I pay ever year to Oregon. I rarely recieve a tax return since I've retired. And paid above and beyond in taxes and fees to the state of Oregon. I'm entitled to those kicker returns and demand that they continued unaltered to me when available. Go fund your DEI crap and Benefits for Illeagal Aliens out of your own pockets. The Oregon government would have money enough if you'd stop supporting this kind of B.S. Again I demand a NO vote on this HB 4125 bill.
