

Submitter: David Parker  
On Behalf Of:  
Committee: House Committee On Climate, Energy, and Environment  
Measure, Appointment or HB4080  
Topic:

Balcony Solar makes good sense. It opens up solar energy to people who can't do rooftop solar since they can't afford it, or rent their homes, or don't have sun on their roofs. There is no downside to this bill. We will have balcony solar everywhere soon. Why wait to make it legal?
