HB4145

Measure 114 is still not judicially approved. Why propose a new HB until this is accomplished? I just found out about the proposed HB and just got under the wire for my testimony. Oregonians have not been given proper notice to testify. If you go forward, place this measure on the ballot! Let Oregonians decide this. I believe there are enough rules and regulations regarding firearm ownership. How many of you have purchased a firearm and gone through the process?
