Committee:

House Committee On Revenue

Measure, Appointment or Topic:

HB4125

I fully support HB4125, the Revenue Forecast Modernization Act. This bill revisits and reforms the state revenue forecast to improve accuracy and allow for responsible budgeting of Oregon taxpayer funds. It would be irresponsible to continue to send a “kicker” of money in times when severe budget cuts must be made to valuable and crucial programs and our educational system. I urge you to support and vote “yes” on HB 4125.
