

Submitter:

Brian Piki

On Behalf Of:

Committee:

House Committee On Revenue

Measure, Appointment or Topic:

HB4125

To whom it may concern:

I am writing in opposition to HB 4125. I believe this measure is an attempt to override the constitutional provision regarding Oregon's kicker rebate. This should not be changed by legislature as the public has been very specific in making it the will of the people. Only the people through the ballot box should be allowed to change this. I honestly believe this is a money grab by legislature to fund pet projects. Which brings me to another point. Oregon is taxing itself to death. People are leaving the state, industry is leaving the state and legislature just keeps funding idiotic projects like free abortions for out of state people.... Dumping money to the homeless which only creates more homeless.... Please learn to live with your means and quit penalizing those paying the bills. Try representing the will of the people!  
Thank you, Brian Piki
